

mod_perl World Wide Deployment Statistics

Discover how mod_perl is used worldwide, through graphs and numbers.

Last modified Thu Jan 29 08:16:28 2004 GMT

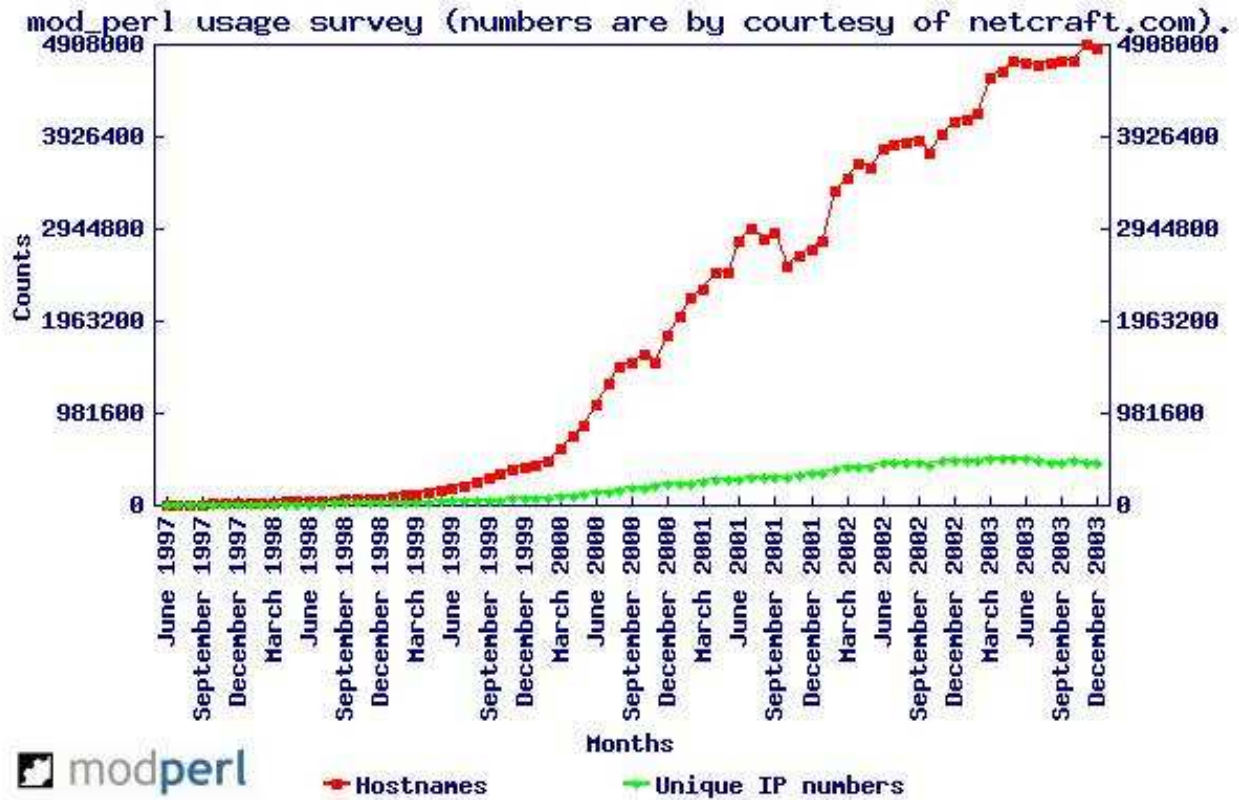

Table of Contents:

- ▶ 1. Netcraft's mod_perl statistics
Netcraft provides monthly statistics of mod_perl use, which we collect here and create statistics of
- ▶ 2. Security Space's mod_perl statistics
Security Space collects statistics on all Apache modules, including mod_perl

1 Netcraft's mod_perl statistics

1 Netcraft's mod_perl statistics

Netcraft provides usage statistics for mod_perl, grouped by host name or unique IP addresses, which we collect here every month to create a graph displaying the evolution of mod_perl usage.

The script that produced this graph and the raw input data is available.

If your site is running mod_perl, tell the Netcraft survey.

Survey	Hostnames	Unique IP Addresses
December 2003	4869752	450912
